PROFILE

I am a MERN stack developer with experience in building responsive and dynamic web applications using MongoDB, Express.js, React.js, and Node.js. Final-year B.Tech CSE student passionate about learning new technologies, solving problems and contributing to impactful projects.

PROJECTS

- **Social Loop** 01/2025- PRESENT
🔗 <https://socialloop.onrender.com>
 - Technologies : MERN Stack
 - Description : Developed a full-stack social media platform using the MERN stack (MongoDB, Express.js, React.js, Node.js). Key features include secure user authentication, personalized profile management, post creation, comment functionality and a like system. The platform is fully responsive, providing a seamless user experience across devices.

EDUCATION

- **Btech - Computer Science and Engineering** 08/2021 - 08/2025
Swami Vivekananda University
CGPA : 8.00
